Lesson 5: Cyber Crime (part 2)

Learning Objectives
- Provide students with information on what is considered to be a cyber crime.
- Raise students’ awareness of the consequences of criminal behavior online.
- Reinforce safe online behavior and how to protect themselves and their personal data from cyber criminals.
- Enhance students’ motor skills while navigating the game.

Materials You Will Need
- Computers with Carnegie Cadets: The MySecureCyberspace Game installed
- Worksheet for Lesson 5: Cyber Crime (part 2)
- Hint Sheet 02 (download from http://www.carnegiecyberacademy.com/documents/hintSheet02.pdf)

Classroom Activities (Duration: 45 minutes)

<table>
<thead>
<tr>
<th>Timeline</th>
<th>Teacher Instructions</th>
<th>Student Activities</th>
</tr>
</thead>
</table>
| Introduce Concepts (15 min) | • Lead students into the game and direct them to Officer Ward’s Office at the Detention Center. Have students talk to Officer Ward to finish the tour. (5 min)  
• Have students click on the photos on the Wall of Shame in Ward’s office. Have students use the PAL to learn about the rest of the cyber villains and their cyber crimes. (10 min)  
  - M.C. Spammer: spamming  
  - The Dis Guys: personal information theft  
  - Captain Jack Plunder: cyber piracy  
  - The ID Bandit: identity theft  
  - The Phisherman: phishing | • Start and log in to the game, then go to Officer Ward’s Office (CyberPort > Cyberspace Portal > Data Stream South > Detention Center > Cyber Forensics Lab > Officer Ward’s Office). Click on Office Ward to talk to him and finish the tour.  
• Click on all of the photos on the Wall of Shame to see the cyber villains. Use your PAL to find out about the ones that are not detainees (PAL > People > Cyber Criminals & Villains). |
| Develop and Practice (20 min) | • Hand out the worksheet to students and explain what phishing is. Have them read the phishing cartoon and discuss what might happen if Erika had submitted her personal information. (Worksheet, part 1) (7 min)  
• Explain what identity theft is and have the students read the cartoon. Discuss what other consequences might be if your identity is stolen. (Worksheet, part 2) (7 min)  
• Explain what a cyber predator is, and have the students read the cartoon. Discuss what Dana could have done differently to protect herself from cyber predators. (Worksheet, part 3) (7 min) | • Read the definition of phishing and the cartoon. Think about what might happen if Erika shares her bank information.  
• Read the definition of identity theft and the cartoon. Think about what other things could happen if your identity was stolen.  
• Read the definition of a cyber predator and the cartoon. Think about what Dana could have done differently to protect herself better. |
| Reinforce (10 min) | • Have each student think of one example of personal information and create a list of their examples on the classroom black/white board.  
• Hand out Hint Sheet 02 and discuss how protecting your personal information is an important way to protect yourself. (9 min) | • Think what personal information is and come up with an example.  
• Read Hint Sheet 02 and talk about why protecting your personal information is important. |

Learning Outcomes
At the end of this lesson, students will be able to:
- Define the cyber defense terms introduced in this lesson.
- Understand the consequences of inappropriate online behavior.
- Understand what information to share and not to share online.
- Take simple measures to protect their offline identity.
- Understand how important it is to protect your personal information online.
Worksheet 5: Cyber Crime (part 2)

1. Phishing

Using a message to send people to a fake website that collects their personal information, such as their bank account or credit card information.

I got an email from an online game club. My account will expire soon?

I have to fill out this form...hmm...They are asking for my bank account and address...

Wait...I learned that I should not share any personal information online! I’ll talk to Omni.

Good job, Erika! Never share your personal information online.

2. Identity Theft

Using somebody else’s personal information to pretend to be them, usually to steal money from someone’s bank account or to buy things with their credit cards.

Oh! I finally found a tiki mask! Cool! I really want to buy it...it’s $15.00...

They are asking for a credit card number and name, I can use my dad’s card........done!!

A few days later, Alexi’s father called Ben...

Someone withdrew $3,000 from my account! I have to call the police! What did you do?

You should not use your parents’ credit card without their permission!!

And never share any personal information online, even your parent’s name!

3. Cyber Predator

Someone who uses the Internet to find young children, often because they want to meet the child in person and hurt them.

I love this Social Networking site. I have 356 friends now! I’m so popular!!

I’m getting a friend request every day from people who I don’t know. I don’t know why.

Because you are putting your full name, age, school name and photos in your profile...

Sweet Dana, I want to meet you!

You are so cute! Can I see you?
