**Tips for Growing a Positive Online Reputation**

Your online reputation can be positive or negative, it all depends on how you behave when you’re in cyberspace and what other people say about you.

1. Do share things that would improve your reputation as a good student, a good friend, and a team player.

2. Don’t share things that would damage your reputation as a good friend and a respectable and trustworthy person.

3. Don’t share things that will make you a target for weirdo strangers or bullies.

4. Be careful about whom you trust with your reputation when you add them to your friends and share things with them.

5. Be on the lookout for others damaging your reputation and act quickly to minimize the damage.
